BULK ORDERS & TEAMS

Lists of 30 for teams

Written by an engineer who spent 15 years starting new jobs, running meetups, and translating business jargon. Useful for onboarding, offsites, and gifts.

New-hire welcome kit

Our Life in Lists of 30 includes **30 Things in the First 30 Days**, **30 Questions for Professionals**, and **30 Internship Tasks**. Pair the book with a printed First-30-Days checklist and a List-It sticky pad.

Team offsite workshop

A 30-minute **Speed-Listing** session: five 30-second listing rounds, then the team writes one list of 30 together (for example, "30 Things Our Team Should Stop Doing"). Led by Clemens in person or virtually.

Client and holiday gifts

Both books plus the 30-Minute Read bookmark and a mini journal. Optional signed copies with a custom note.

Speaker sessions

Talks drawn from the books and career: early career advice, small talk for engineers, giving a speech, and using AI as a writing partner without losing your voice.
