1.

“Hit the ground running”

– Bring value as soon as possible.

3.

Find and befriend a mentor.

5.

Build trust with deliverables and action.

6.

Grab coffee with the team and be friendly

(get to know them and all their names/backstories with interest).

9.

Baseline your expectations.

18.

Listen to the team. Listen to your customers.

In fact, listen 10x more than you talk for the first 90 days.

20.

Bring up skepticism strategically

and after additional research.

23.

Ask for documentation and read everything.

28.

Document and reflect on your progress.

30.

Send out a badass introduction about yourself.
